

## THREAT AT CABLES

## Statement Calls Attention to Power of Executive Over Permits to Lines.

A veiled threat that the permits granted for the landing of Western Union cables in the United States will be revoked unless the company continues to pay the American government the same privileges that it accords the British and other governments in handling cable messages is contained in a formal statement issued today by the State Department.

This was the first statement by the department regarding its controversy with the telegraph company, which is of several months' standing, and which culminated with the notice from the company to the department that cable messages offered it for transmission after November 10 would have to be paid for in advance and also that the government would no longer be granted the reduced rate on messages originating abroad.

After reviewing the differences regarding the settlement for cable messages previously transmitted, the department announced that it declared that the legal principles controlling the landing and regulation of cables in the United States were well established, and that "in the absence of congressional legislation, these matters are regulated by the executive by virtue of his authority with respect to the conduct of relations with foreign countries."

"The executive," said the statement, "may prevent the landing of a cable or permit it on conditions which will protect the interests of the United States; and if a landing has been made without the consent of the government the operation of the line may be prevented."

Some Give Free Service. "It has been the uniform policy of the government to allow the landing of cables only on condition that the government of the United States shall be entitled to exercise and to enjoy the same privileges with regard to the control and use of such lines as are exercised and enjoyed by any foreign government. Obviously the law and the policy must be the same whether telegraphic connection with a foreign country is by a land line or by a submarine cable."

"Nothing unreasonable has been asked of the new Union company; nothing not required from, and without objection granted by, other companies; much less has been asked than some companies give the government. It may be mentioned that certain companies accord to the government of the United States entirely free cable service for official messages."

No mention is made in the department's statement regarding the failure to issue a permit for the Western Union company to land a cable from Barbados at Valera, Fla., but it is known that State Department officials believe this actuated the company in its refusal to handle other than prepaid cable messages. The statement said the rate which had been paid by the government to the Western Union and to certain other companies for messages sent by cable was one-half of the regular commercial rate.

## FORM U. S. ORGANIZATION FOR IRISH RECOGNITION

Sympathizers With Erin's Cause Give De Valera Means to Achieve Purpose.

"The American Association for the Recognition of the Irish Republic," an organization intended to give Edward L. De Valera, president of the Irish republic, a vehicle for working out his plans and those of the Irish representatives, was organized today at a conference of Irish sympathizers from more than twenty states at the Raleigh Hotel.

This organization is expected by its founders to supplant the Friends of Irish Freedom, and to absorb the membership of the latter organization. It was organized at the call of De Valera, who, in opening the conference, declared that all existing organizations had fallen down on the work and that the inaction of the movement in America had become intolerable to the friends of Ireland here.

The first national convention of the association, at which a temporary constitution adopted during the night, and the temporary officers selected will be acted upon, will be held in Chicago the first week in April. It is expected by that time the state units will be the controlling force in the association, will have been perfected.

Edward L. Doherty of Los Angeles, millionaire, was elected president, on nomination by Frank P. Walsh, president of the American commission on Irish independence. Doherty is the man who introduced the minority report on the recognition of the Irish republic at the democratic national convention in San Francisco. Judge John W. Goff of New York, John J. Castellino, Cincinnati, and Maj. Eugene Kinkead of Jersey City were made vice presidents; John J. Hearne of Westfield, Mass., was made treasurer, and Daniel C. O'Flaherty of Richmond, Va., secretary.

## GREAT BRITAIN REFUSES SEAT IN IRISH INQUIRY

Notifies Committee of Hundred Does Not Approve of Methods to Be Followed.

The British embassy today notified the committee of one hundred investigating conditions in Ireland that it does not approve of the methods to be followed in the committee's hearing of the case, and that there was nothing in the composition of the committee itself to remove from it the idea that it was not impartial or prejudiced in advance.

## HUNGARY'S CABINET STAYS.

BUDAPEST, November 15.—Count Paul Teleki, prime minister of Hungary, announced in the assembly today that he had offered the cabinet's resignation to the regent, Admiral Nicholas Borty, who declined to accept it. The cabinet was formed July 24, 1920.

## The Mission of the Crepe de Chine Blouse

—is service and charm, a mission well fulfilled by these smart styles at \$4.98  
—The surface of crepe de chine, in the plain flesh, and white especially, is nearer in appearance to the soft radiance of a pearl than almost anything else to which one can compare it. The simple manner in which these new models are made detract nothing whatever from the beauty of material. Besides the white and flesh, we have them in plain navy and plain brown. They are made with tuxedo vest and tuxedo collar.  
—Others are of striped crepe de chine, white grounds with the stripes in blue, green, gold, tan, helio and rose.  
—In our interest over the crepe de chine we must not forget the many lovely models in georgette, some beaded, some embroidered with gold thread, and others, ornamented with the novel chromitiz stitching. These are in white, flesh and the popular suit shades.  
—We call special attention, also to the clever and becoming models for the large woman, which we show in striped and plain color crepe de chine, in extra sizes, 48 to 52.
